

CURRICULUM VITAE

PERSONAL

Name	Mona Alinejad-Naeini
Gender	Female
Date of birth	1379/8/29
Place of birth	Tehran
Address, work	Rashid yasami St, Faculty of Nursing, Iran University of Medical Sciences
Phone, work	021-43651605
Phone, home	021-44803572
E-mail address, official	Alinejad.m@iums.ac.ir
E-mail address, personal	Mona_alinejad@yahoo.co

EDUCATION AND QUALIFICATIONS

University and/ or further education

BSc	Nursing, Shiraz University of medical sciences, 1997
MSc	Neonatal intensive care nursing, Tehran University of Medical Sciences, 2011
PhD	Nursing Education, Iran University of Medical Sciences, 2018

Language qualifications

Persian	Fluent
English	Good

PROFESSIONAL INTERESTS

Qualitative Research
Quantitative Research

Neonatal nursing
Pediatric nursing
Maternal health promotion
Psychometric and instrument development

PROFESSIONAL MEMBERSHIPS

Assistant Professor, Pediatric and neonatal intensive care Nursing department, School of Nursing and Midwifery, Iran University of Medical Sciences, Tehran, Iran

Member of Nursing Organization of Iran

Member of Iranian Cardiac Nurse Society

ACADEMIC APPOINTMENTS

Responsible for continuous nursing education of Iran University of Medical Sciences

RESEARCH EXPERIENCE

Dissertation/thesis

- Research project titled "Investigation of the effect of the facilitated folded position during suction on pain and adaptation to stress of premature babies admitted to the neonatal intensive care unit", 2013
- A research project entitled "The process of maternal role attainment in mothers of premature babies hospitalized in the neonatal intensive care unit: presentation of the model". 2017
- Research project with the title "Investigating the relationship between bullying in the workplace and the self-concept of nurses in the neonatal intensive care unit of selected medical training centers in Tehran - 1401: A descriptive correlational study".
- A research project entitled "Investigating the mediating role of emotional intelligence in the relationship between the quality of professional life and caring behaviors of nurses working in the children's department: a path analysis study".
- A research project titled "The effect of the combined method of painting and storytelling on the anxiety and fatigue of children with cancer undergoing chemotherapy".
- A research project entitled "Comparison of the effect of gentle human touch and oral sucrose on pain and distress caused by oral-gastric tube placement in premature infants hospitalized in the neonatal intensive care unit: a randomized clinical trial.
- A research project entitled "Investigation of the relationship between mothers' social

support by nurses and the quality of mothers' care of premature babies discharged from the neonatal intensive care unit of selected hospitals of Iran University of Medical Sciences in 1400"

- A research project entitled "Evaluation of the effect of foot reflexology massage on delirium and physiological indicators in children admitted to the pediatric intensive care unit: a randomized clinical trial".
- • A research project entitled "Investigating the relationship between work enthusiasm and job stress in nurses working in the children's department: the mediating role of psychological capital".
